1. Background

1.1 The Teaching Council's Review and Accreditation Function

The Teaching Council is the statutory body charged with setting the standards for entry to the teaching profession and ensuring that these standards are upheld.

In accordance with Section 38 of the Teaching Council Act, 2001, the Council shall:

- (a) review and accredit the programmes of teacher education and training provided by institutions of higher education and training in the State,
- (b) review the standards of education and training appropriate to a person entering a programme of teacher education and training, and
- (c) review the standards of knowledge, skill and competence required for the practice of teaching,

and shall advise the Minister and, as it considers appropriate, the institutions concerned.

The Teaching Council's role in relation to the review and accreditation of programmes of Initial Teacher Education (ITE) is distinct from the academic accreditation which programmes also undergo. Academic accreditation is based on the suitability of a programme for the award of a degree/diploma, whereas professional accreditation for any profession is a judgement as to whether a programme prepares one for entry into that profession.

The review and accreditation of programmes of ITE by the Teaching Council provides an opportunity for Higher Education Institutions (HEIs) to demonstrate that they offer quality programmes of teacher education. It is expected that the graduates of such programmes will achieve programme aims and learning outcomes which are aligned with the values, professional dispositions, and the standards of teaching, knowledge, skill and competence that are central to the practice of teaching.

1.2 Review and Accreditation Strategy

In order to guide its review of programmes, the Teaching Council has published *Initial Teacher Education: Strategy for the Review and Accreditation of Programmes* (hereinafter referred to as the Council's review strategy). That document sets out the process by which programmes are reviewed.

1.3 National Policy Framework

In carrying out reviews, the Council is mindful of its *Policy on the Continuum of Teacher Education* which sets out its vision for teacher education at all stages of the continuum – ITE, Induction, and Continuing Professional Development. Published in 2011, the policy highlights the evolving and dynamic context for teaching and the increasingly complex role of teachers in Ireland today. The policy states that "...the time is now right for a thorough and fresh look at teacher education to ensure that tomorrow's teachers are competent to

meet the challenges that they face and are life-long learners, continually adapting over the course of their careers to enable them to support their students' learning." It further states that innovation, integration and improvement should underpin all stages of the continuum.

In parallel with the development by the Council of its *Policy on the Continuum of Teacher Education*, the Minister for Education and Skills initiated a national consultation process on the theme of improving literacy and numeracy. This culminated in 2011 with the publication of *Literacy and Numeracy for Learning and Life* as the national strategy to improve literacy and numeracy standards among children and young people in the education system. The strategy emphasised teachers' professional development and proposed that the duration of initial teacher education (ITE) programmes should be extended and that programme content should be reconceptualised.

1.4 Accreditation Criteria

The Teaching Council, having established an Advisory Group on Initial Teacher Education, developed criteria to be observed and guidelines to be followed by providers in reconceptualising programmes of initial teacher education at primary and post-primary levels. They were approved by the Council and published in June 2011 as *Initial Teacher Education: Criteria and Guidelines for Programme Providers* (hereinafter referred to as the Council's criteria). These relate to a range of areas, including programme design, areas of study, the duration of programmes, the numbers and qualifications of staff, facilities and resources. As such, they form the bridge between the Council's policy and the development and implementation of reconceptualised programmes. Significantly, the criteria:

- prescribe those areas of study which will be mandatory in programmes, including numeracy and literacy, behaviour management, parents in education, ICT and inclusive education
- set out for the first time the expected learning outcomes for graduates of all ITE programmes
- propose raising the minimum requirements for persons entering programmes of ITE at primary level and a literacy and numeracy admissions test for mature entrants
- require a 15:1 student-staff ratio
- call for the development of new and innovative school placement models, involving active collaboration between HEIs and schools, and an enhanced role for the teaching profession in the provision of structured support for student teachers
- require that student teachers should spend at least 25% of the programme on school placement, and that such placements should be in a minimum of two schools
- require increased emphasis on research, portfolio work and other strategic priorities.

While recognising the inter-related nature of all aspects of programmes of teacher education, the criteria and guidelines are categorised under Inputs, Processes and Outcomes. All three dimensions have an important bearing on the quality of teacher education. The required Inputs and Outcomes are clearly elaborated in the document, while the Processes are less prescriptive to allow HEIs the freedom to develop the processes which best suit their individual situations.

Providers of existing programmes have been asked to reconceptualise their programmes in line with the revised criteria and to submit them for accreditation.

1.5 Particular requirements for post-primary programmes

In January 2017, the Council published *Teaching Council Requirements for Entry onto a Programme of Initial Teacher Education*, which set out the Council's revised subject criteria. They have guided providers of post-primary concurrent programmes in determining the subject content coverage which is appropriate. They also guide providers of post-primary consecutive programmes in determining suitability of entrants and which curricular subjects entrants can ultimately be registered to teach. They also guide PME providers in matching students appropriately to methodology modules.

1.6 Programme overview

This report relates to the review of the following programme provided by **University College Cork– BEd Gaeilge (with another Language or Mathematics)**- hereinafter referred to as 'the programme'

2. The Review Process

The review of **BEd Gaeilge (with another Language or Mathematics)** took place between October 2019 and June 2020 in accordance with the Council's review strategy. The process was formally initiated when the Review Panel (hereinafter referred to as 'the panel') was appointed by the Teaching Council's director, with Prof Anne O'Gara as Chairperson.¹ With Panel members Dr Mary Fleming and Ms Joan Russell. The Review panel was supported by a Rapporteur. The Rapporteur's functions included liaison with The University of Limerick, maintaining records of meetings, and drafting and finalising the panel's report in conjunction with the panel Chairperson. The panel was also supported in its deliberations by external subject experts and by the Director of the Teaching Council and his executive staff nominees

Documentation relating to the application was submitted to the Teaching Council by University College Cork in October 2019. The panel met initially on 10 March 2020 to give preliminary consideration to the UCC submission. At this meeting, the panel identified issues that required further clarification and these clarifications were sought from UCC on 17 April 2020. Following receipt of documentation on 19 May 2020 outlining responses to these clarifications and a collation of the initial views of the members of the panel, a second panel meeting was held on 03 June 2020 to consider same. The Panel requested further clarifications from UCC on 30 July 2020 and on receipt of a response on 17 September 2020 a draft report was compiled.

¹ Details of the Review Panel membership are included in Appendix I

Accordingly, it recommends to the Teaching Council that the programme be granted accreditation.

The commendations in Section 6 below relate to areas of particular strength which the panel has identified.

With regard to the recommendations in Section 7, the panel submits that the Teaching Council should require the University to set out, within twelve months of receiving the final review report, its detailed proposals for implementing the recommendations. It further recommends that the Teaching Council should prioritise those areas to be accorded particular attention when the programme falls due for re-accreditation.

In the case of the national issues raised in Section 8 of this report, the panel recommends that the Council engage in dialogue on those issues at national level.

The panel proposes that accreditation of the programme would have a lifespan of five years.

6. Commendations

7. Recommendations

Having regard to:

1. the Pro Forma documentation which was submitted
2. the supplementary material which was submitted and
3. advice received from the curricular subject specialists who supported the review process and

the panel has noted a number of areas of the programme which it believes should be developed. They are as follows:

7.1 Inputs

7.1.1 Areas of Study

The Panel recommends that the learning outcomes for the school placement modules, namely ED 2404, ED3403, ED4103 and B ED 4108, are differentiated to ensure clarity with respect to the areas of focus and appropriate progression.

It is commendable that students studying Italian have the opportunity to undertake the Certificate of Italian as a Second Language CILS examination/s. It is recommended that similar opportunities be explored for students undertaking the other language components of the programme.

7.1.2 Teaching, Learning and Assessment Strategies

The panel recommends that consideration be given to including the use of ICT in teaching and learning as a specific learning outcome in teacher professional development and subject specific pedagogy modules.

7.1.3 Student Support and Guidance Systems

It is recommended that the linguistic supports available to language students in years three and four of the programme be extended to first and second year students.

7.2 Processes

7.2.1 Teaching, Learning and Assessment Approaches

Mandatory Elements of the Programme

The Panel recommends that the relevant module specifications be amended to ensure that the intended student learning outcomes in relation to the mandatory elements of the programme are more explicit.

8. *National Issues*

Having regard to:

1. the Pro Forma documentation which was submitted
2. the supplementary material which was submitted and
3. advice received from the curricular subject specialists who supported the review process

the panel has noted the following issues which it believes merit further attention by the Teaching Council and/or other national stakeholders.

8.1 *Covid 19 Implications for Initial Teacher Education*

In light of the responsibilities placed on teachers during the Covid-19 restrictions, opportunities for student teachers to engage in the theory and practice of remote and blended learning should be enhanced. In this regard, further consideration of alternative and varied methods of assessment should also be considered.
