General Guidelines

1. Eligibility

The PRQA-01 online application form on the My Registration portal should only be completed by teachers who attained their initial teacher education qualification outside the Republic of Ireland, who hold full teaching registration/licence status in that state and who are seeking an assessment of their qualifications under Route 1 (Primary) and Route 4 (Other). Please note registration can only be finalised on successful completion of the vetting process. Garda Vetting must be applied for via the PRQA-01 online application.

Fully qualified teachers who have qualified outside of the Republic of Ireland are eligible to apply for registration with the Teaching Council. All applications from teachers who qualified abroad are processed in line with the EU Directive 2005/36/EC and are assessed in the same manner, regardless of whether they qualified within or outside the EU. All applications are individually assessed.

A person deemed to be a fully qualified teacher has completed a recognised teacher education qualification and programme of induction in the country in which they qualified and can provide an official letter from the relevant teacher registration body/Competent Authority or Ministry of Education confirming recognition as a fully qualified teacher in the State/country.

In accordance with the EU Directive 2005/36/EC, the qualifications of teachers who qualified outside of the Republic of Ireland are assessed to ensure they are of a comparable standard to those achieved by graduates of accredited programmes in the Republic of Ireland. Where significant differences arise, conditions (qualification shortfalls) will be applied to the teacher's registration.

1.1. European Union Applicants

Applicants who completed their teacher education qualification in an EU/EEA country must provide evidence of recognition under the terms of the EU Directive 2005/36/EC. This statement can typically be provided by the Ministry for Education or teacher registration/licencing body and should include the following information:

that full recognition is granted by the said authority as a primary school teacher under the terms of the Directive.

the pupil age range for such recognition.

the types of schools in which the applicant is certified to teach.

the specific subjects for which recognition has been granted.

The Directive entitles teachers fully recognised in their home state to avail of qualified teacher status in the host country (Republic of Ireland) and entitles them to apply for Conditional Registration. **This assumes applicants have met requirements in terms of Evidence of Character (Vetting/Police Clearance), fitness to teach and payment of the appropriate fee.** The conditionality attached to their registration will be confirmed following an assessment of their qualifications to determine if they are comparable with the domestic registration requirement. If substantial differences are found, the EU Directive allows a maximum period of three years during which applicants are required to address identified shortfalls (compensatory Measures). Failure to address shortfalls within the specified period will result in teachers registration lapsing.

1.2. Rest of World Applicants

Applicants who completed their teacher education outside of the EU/EEA, must provide a statement from the competent authority (Teaching Council equivalent/ Department/Ministry of Education) that they are a fully recognised teacher in the country in which they obtained their qualification including the completion of any statutory period of post-qualification practice/induction.

2. Application Process

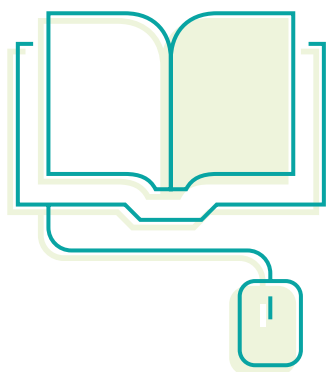

In order to complete the online application process, the following steps must be completed;

- a. Submit completed Application form PRQA-01 including relevant fee
- b. Submit evidence of qualifications including transcripts and module descriptors (see list below of evidence you should prepare before making your online application)
- c. Submit evidence of meeting English Language requirements (where applicable)
- d. Submit evidence of all teaching experience to date
- e. Commence the vetting process via the online application process.

3. Incomplete Applications

Applications which are incomplete will not be eligible for submission. The application can be saved and returned to at a later date. Any applications that remain unsubmitted after three months will be deleted.

It is important to note that if you close your browser without saving your application your data will be lost and you will have to start your application again.

4. Supporting Evidence

Before you start your application, please ensure that you have the following information to hand in a format that you can upload, e.g., Word, PDF, image:

- 1. Statement of recognition from a competent authority
- 2. Evidence of induction
- 3. Parchment/certificate for each qualification
- 4. Academic transcripts for all years showing credits awarded
- 5. Module descriptors for all relevant modules
- 6. Evidence of competency in the English language (where applicable)
- 7. Signed Character Reference (copy of the blank form can be downloaded from the first page of your PRQA-01 online application)
- 8. Identification, proof of address and Overseas Clearance documents for Garda Vetting
- 9. Evidence of name change, if applicable (marriage cert, deed poll)
- 10. Teaching service history (if relevant)
- 11. Debit/Credit card to pay the application fee.

The Council reserves the right to verify any documentation submitted in support of an application and/or request original documents if not satisfied with the documents submitted.

5. Vetting

Registration is subject to Vetting. Only Vetting carried out via the Teaching Council can be accepted for registration. Vetting through a third party (e.g. school, GAA, club/society) cannot be accepted for registration purposes. You may apply for Vetting via the PRQA-01 online application form.

6. Application Processing Timeframe

An assessment of your application and qualifications can only commence when you have submitted all required documentation to the Council. It does not start from the date which you submit your first application. Staff will contact you if you have failed to submit particular documentation. It is only when all documents have been received that the file is ready to begin assessment. The assessment will take approximately twelve weeks from receipt of all requested documentation.

7. Translation of Documentation

You must submit photocopies of all documents in English or Irish. All documents which are not in the English language must be accompanied by an English language translation. The translated documents must be officially stamped by an accredited translator, an embassy/consular official who is fluent in both languages, or by a university language(s) lecturer. You must include the name and address of the translator so that we can verify the translation.

Please note that you can also translate the documents yourself but you must have the documents verified (stamped by an official translator).

In order to assist applicants and minimise the costs associated with translation, applicants can provide summary information of the modules identified on their transcripts.

Please highlight the sections of the course handbook that have been translated and attach the relevant translations.

What is a module descriptor?

A module descriptor is a succinct description of a module and its key features and should include:

- a summary of the module content
- a description of how the module content is delivered
- a description of how the module content is assessed
- the learning outcomes associated with the module
- any periods of supervised school placement/ supervised teaching practice.

Please be aware that assessments can only be carried out on the information provided by the applicant; it is the responsibility of the applicant to provide sufficient information in each module descriptor in order to facilitate assessment.

8. ECTS Credits

European Credit Transfer and Accumulation System (ECTS) is a standard for comparing the study attainment and performance of students of higher education across the European Union and other collaborating European countries. ECTS credits are awarded to students when they successfully complete their studies. One academic year corresponds to 60 ECTS credits. This is equivalent to 1,500-1,800 hours of study in all countries irrespective of the standard or qualification type. The ECTS credit system is used to facilitate transfer and progression.

9. Previously recognised qualifications

If your qualifications have previously been assessed for registration purposes by either the Department of Education or the Teaching Council, you should complete application form REG-01. Go to My Registration, create an account if you do not have one, choose Applications/Apply/Qualified in the Republic of Ireland/Apply Now.

10. Irish Language Requirement

The Teaching Council welcomes applications for registration from outside of the Republic of Ireland and all applications are assessed on an individual basis. The following should be noted in relation to this requirement.

In accordance with Route 1 of the Teaching Council (Registration) Regulations 2016, if an applicant for registration completes a programme of teacher education outside of the Republic of Ireland (with the exception of the PGCE through the medium of Irish or the four year honours Irish academic course at St. Mary's College, Belfast), he or she must complete an aptitude test or adaptation period which satisfies the Department of Education and Skills and proves that the applicant is competent to teach the Irish language and teach the range of primary school curricular subjects through the medium of Irish.

Conditional registration may be granted to those who are in the process of completing this requirement.

A maximum period of three years from date of registration is allowed. Failure to address this condition within the time period allowed will result in your registration lapsing.

Full information on the Irish Language requirement can be accessed on www.ilrweb.ie.

Candidates who have Irish as a major subject in their degree may apply directly to Marino Institute of Education for exemption from parts of the S.C.G./O.C.G.
